

Cady Greene

Working for the YCC, has been a great experience. The work environment is exceptional . Working at the gardens in Bridgeport and Weir Farm has been the best for me. Also, getting to work with the other kids from Bridgeport has opened my eyes to other cultures in Connecticut. Building stone walls at Weir Farm has been my favorite work experience. The manual labor of this summer was masked by my great co-workers, and the fun we've had. I hope to continue this job into the future.
